What is B-Stock?

David Lackner - 2022-06-29 - B-goods

B-Goods, B-Stock or "refurbished" labels products we can offer at a reduced price of up to -30% because they are no longer part of our regular assortment but still function normally. This includes but is not limited to display models, returned products or items with packaging that was damaged in transit. All such products are thoroughly checked before we approve them for sale, and the Eleonto service with free delivery and 30-day return applies as well, of course.
